The **Department of Neurosurgery, All India Institute of Medical Sciences (AIIMS), New Delhi**, is pleased to invite you to participate in the **AIIMS Annual Spine Workshop (AASW-2026)**, scheduled to be held from **20th to 22nd August 2026** at the **Conference Hall, AIIMS, New Delhi**, including an immersive **one-day cadaveric workshop**.

AASW-2026 is designed as a **comprehensive academic platform** adopting an **innovative 360-degree learning model**, seamlessly integrating **didactic lectures, simulation-based learning, cadaveric dissection, and operative demonstrations**, aimed at bridging the gap between theoretical knowledge and surgical mastery.

This year's workshop will focus on *Unilateral Bi-portal Endoscopic (UBE) Spine Surgery* and *Scoliosis / Spinal Deformity Surgery*, in alignment with the central theme of ***Advancing Excellence in Modern Spine Surgery***. The program emphasizes contemporary minimally invasive techniques, deformity correction strategies, and practical decision-making in complex spine surgery.

The workshop will feature **world-renowned national and international faculty**, who will demonstrate advanced surgical techniques through **hands-on cadaveric sessions and operative procedures**.

We believe that your participation will significantly enrich the academic deliberations and contribute to the success of this prestigious event.

We warmly welcome you to **New Delhi, the capital city of India**, for an unparalleled **academic feast**, and look forward to your esteemed presence at the **AIIMS Annual Spine Workshop (AASW-2026)**.

Highlights

- **Operative Endoscopic spine surgery**
  Unilateral Bi-portal Endoscopy (UBE) approaches advancing well beyond simple decompression to fusion and complex pathology.
- **Operative Scoliosis and deformity surgery**
  Deep dives into strategies, imaging, alignment planning, and novel MIS solutions.
- **Minimally Invasive Fusion (MIS-TLIF)**
  Focusing on indications, outcomes, instrumentation, and integration with navigation/robotics.
- **Operative Spinal tumor surgery**
- **Hands-on Cadaveric workshop**
  Basic to advanced Endoscopic spine surgery techniques.
